Bachelor of Information and
communication Technology
2020- present

About Me

Meet Rozeep Rai, a dedicated and passionate IT student on a journey to explore the vast world of technology. With an insatiable curiosity for all things digital, Rozeep Rai is driven by a deep-seated desire to understand and innovate in the ever-evolving field of Information Technology.

Professional Experience

Freelance Web Developer

2020 – 2022

Key responsibilities:

- Designed and developed responsive websites for small businesses and individuals using HTML, CSS, JavaScript, and WordPress.
- Worked closely with clients to gather requirements, create project proposals, and deliver websites on time and within budget.
- Implemented SEO best practices to improve website visibility and search engine rankings for clients.
- Provided ongoing maintenance and updates to websites, ensuring security and performance.
- Managed client relationships, addressing concerns, and providing technical support as needed.

IT Support Assistant | Grammar College |

2022 – Jan 2023

Key responsibilities:

- Provided technical support to students and faculty, resolving hardware and software issues in person and via remote assistance.
- Assisted in maintaining computer labs, ensuring all equipment was operational and up to date.
- Conducted basic hardware repairs and upgrades, such as RAM and hard drive replacements.
- Collaborated with the IT team to plan and execute campus-wide software upgrades, minimizing disruption to users.
- Assisted in the setup and configuration of audiovisual equipment for classroom presentations and events.
- Conducted training sessions for students and faculty on IT tools and best practices.

Achievements

Client Satisfaction: Maintained a 95% or higher client satisfaction rate as a freelance web developer, receiving positive client feedback and referrals.

Volunteer Work: Contributed IT expertise to non-profit organizations, aiding them in improving their digital infrastructure and online presence.
